

Contents

Experimental Researches

- Effect of hydraulic load on pollutant distribution and grassland purification efficiency in rural domestic sewage utilization Su Chuangjian, Wang Dayang, Shu Yan, et al (1)
- Fractal and multifractal characteristics of soil particle-size distribution in different forest types in typical karst regions of Guangxi Sun Zhe, Ma Xiongzong, Chen Yuhang (10)
- Effect of organic fertilizer combined with water-retaining agents on soil hydraulic characteristics in topsoil layer of brown soil Zhao Min, Wang Xinping, Zhao Cong, et al (20)
- Hydrodynamic characteristics of overland flow under different surface roughness of red soil slope Chen Fengting, Tan Qingfang, Huang Yuhan, et al (30)
- Debris flow regulation efficiency of “S” type vegetation dams with different flow path width ratios Zhang Zhen, Qi Yuchao, Wang Daojie, et al (40)
- Effects of different planting patterns on soil and water loss of sloping cropland in dry-hot valley Zhang Binyan, He Guangxiong, Wang Yandan, et al (49)
- Nutrient loss dynamics in dump waste platform-slope systems under heavy rainfall Zhao Yunyi, Cao Xiaoping, Liu Yuan, et al (58)
- On-site investigation of W-OH improvement effect on slope leakage from gravel slag slopes Ge Haoqian, Chen Qun, Li Lu, et al (65)
- C, N, and P Stoichiometry characterization in soil of *Hedysarum scoparium* community at northeastern edge of Tengger Desert Zheng Xiaoxia, Ge Nan, Liu Yanping, et al (74)

Soil and Water Conservation Monitoring and Applied Technology

- Characterization of spatial-temporal changes and its driving factors in understory vegetation coverage in Hubei Province Zhao Hui, Dong Shikang, Yang Wei, et al (82)
- Characteristics of plant community composition in typical catchments of landslide-dammed reservoirs in gully regions on Central Loess Plateau Zhang Jielin, Wang Xiaqing, Lü Feiya, et al (94)
- Spatiotemporal evolution analysis and attribute identification of land desertification in middle and upper reaches of Yarlung Zangbo River Lü Zhenyu, Wang Pengxiang, Dong Yiyang, et al (105)
- Evaluation and optimization of soil and water conservation and crop value-added benefits after converting slope to terrace land in hilly areas of Southern China
—A case study of Danjiangkou City, Hubei Province Yu Bing, Li Lu, Yang Wei, et al (114)
- Landslide risk assessment of Beiliu City based on a fully connected neural network method He Na, Zhu Xisong, Wu Fu, et al (127)
- Ecological security pattern identification based on InVEST model and circuit theory
—A case study of Hainan Tibetan Autonomous Prefecture-Qinghai Province Zhao Longlian, Cao Guangchao, Yan Xin, et al (137)
- Characteristics analysis and risk assessment of low-frequency debris flow induced by heavy rainfall based on numerical simulation
—A case study of Jiwozi flash flood and debris flow in Qinling Mountains Ma Zhiliang, Zhuang Jianqi, Wu Jing, et al (147)
- Risk evaluation of Benggang in Shangyou County Jiangxi Province based on matrix discriminant method Zhang Jingxin, Cheng Dongbing, Guo Fei, et al (158)
- Effective soil thickness inversion in Xinanjiang River basin based on random forest (RF) and empirical Bayesian Kriging regression prediction (EBKRP) algorithms Wang Shangxiao, Zhang Xiaodong, Zhang Ming, et al (168)
- Spatiotemporal dynamic process of land use conflicts and multi-scenario simulation
—A case study of Wuhu City, Anhui Province Bai Qingyang, Cheng Jiumiao, Cheng Chao, et al (178)

Water evaporation characteristics of soil cracks in dump under different backfill techniques
..... Mao Xiangrong, Cao Xiaoping, Lü Gang, et al (190)

Vegetation restoration and screening with suitable tree and grass taxa for extra-high voltage transmission projects
—Taking Gansu section of Jiuquan-Hunan \pm 800 kV DC transmission line project as an example
..... Jin Zihui, Geng Wenting, Li Yonghong, et al (199)

Carbon Effect Researches

Effects of afforestation on soil organic carbon density in forest-steppe ecotone of Northern Hebei Province
..... Wang Xiaorui, Jia Yanlong, Xu Zhongqi, et al (208)

Influence of microplastic species and size on infiltration process and hydraulic parameters of carbonate lateritic soils
..... Lu Lixia, Chen Hao, Wang Ruzhang, et al (215)

Effect and simulation on overlying carbonate red soil layers on water migration in phosphogypsum
..... Chen Hao, Liu Dongdong, Feng Na, et al (225)

Community and functional gene characteristics of soil carbon sequestration microorganisms in Xianshanhu National Wetland Park
..... Lu Zhangxin, Yan Feiyang, Wu Choufei, et al (235)

Spatiotemporal evolution and prediction of carbon storage in Miyun Reservoir basin during 1985—2035
..... Liu Xiaodan, Li Lei, Zhang Hong, et al (244)

Assessment and vulnerability analysis of carbon storage in Dawen River basin based on land-use change
..... Jia Yanyan, Zhang Fangyuan, Liu Xinlong (254)

Carbon emissions of cultivated land use transformation and influencing factors at different spatial scales
—A case study in Hunan Province
..... Yang Jun, Liu Chang, Yuan Shujun, et al (264)

Multi-objective land use pattern optimization based on carbon balance partitioning district
—A case study of Changsha-Zhuzhou-Xiangtan urban agglomeration
..... Tan Deming, Tan Zhuocheng, Li Jiayu, et al (276)

Comprehensive Researches

Spatial and temporal changes in soil and water conservation services across Sanjiangyuan region during 2000—2020
..... She Huan, Li Peng, Wang Xiaokang, et al (286)

Influence of urban parks and surrounding landscape patterns on cold island effect
—A case study of Fuzhou City, Fujian Province
..... Liu Shenglong, Xie Huili, Chen Lingxiu, et al (296)

Spatiotemporal differentiation and influencing factors of urban land green utilization efficiency in Anhui Province
..... Ma Ming, Mao Lihu, Liu Yuge, et al (306)

Spatial and temporal changes of ecological environment quality in Weihe River basin from 2000 to 2020
..... She Huan, Li Peng, Wang Xiaokang, et al (317)

Effect of topographic gradient of land use change in Yellow River arsenic sandstone area from 2000 to 2023
..... Liang Tong, Zhang Lu, Cao Changjing, et al (327)

Spatiotemporal changes and influencing factors of soil conservation capacity in Linyi City of Shandong Province based on InVEST model
..... Wang Lan, Li Xiaojuan, He Jijun, et al (337)

Analysis of land use conflict agglomeration and evolution in Wanjiang Urban Belt based on optimal spatial threshold
..... Wang Yuchun, Ang Yufeng, Wang Bingyi (346)

Spatiotemporal differentiation of soil and water conservation ecological service function in Mudanjiang City
..... Liu Peixian, Liu Ying, Li Tienan, et al (357)

Visualization analysis of plant-soil reinforcement research based on bibliometrics
..... Jing Youliang, Hui Wen, Ying Cai, et al (370)

Coupling coordination of land use recessive form and ecological welfare performance and its influencing factors
—A case study of cities along lower Yellow River
..... Chang Jinglin, Ma Ying, Su Xianghui, et al (381)

Coupling coordination relationship between soil and water conservation policy, agricultural eco-efficiency, and its driving factors
..... Li Wenyan, Li Liangxin, Shao Jingan (393)
