Experimental Researches

Characteristics of changes in factors influencing wind erosion and erodibility of soils in Mu Us sandland during desertification reversal Feng Jiaxin, Wang Haibing, Liu Xiya, et al (1)

Soil water characteristics of different aerial-seeded plant communities at Northeastern Edge of Tengger Desert Tang Guodong, Ge Nan, Zhang Tiejun, et al (10)

Flume-based experimental study on wave prevention and sand fixation functions of sand barriers applied to coral sandy coastlines Qu Jianjun, Li Shaowu, Jiang Chong, et al (18)

Construction experiment and mechanical modeling of soil-concrete composite slope protection technology Li Dong, Wang Chuanming, Li Xiaojun, et al (31)

Simulation experiment on effect of surface cracks caused by coal mining on soil moisture disturbance in loess-covered area Tang Fuquan, Jia Xiaohui, Hou Enke, et al (40)

Biological characteristics of periphytic algae on different building material substrates in water eco-environment Zhao Zhimiao, Chen Tingyu, Zong Bingnian, et al (49)

Mechanical properties of *Medicago sativa* and *Euphorbia hypericifolia* root-soil complex Hai Long, Tan Shilin, Xu Bo (57)

Effects of desertification on phosphorus fractions of alpine meadow soils Li Dongmei, Yin Xia, Li Liangan, et al (65)

Diurnal variation characteristics of temperature and water content in quicksand surface layer under different protective measures Fan Yanwei, Shi Jinhong, Tang Xingpeng (72)

Spatial distribution characteristics of soil water and salt in newly cultivated farmland under gully control in loess hilly region Ke Zengming, Ma Lihui, Jiao Feng (81)

Effects of ecological restoration measures of fish-scale pit on soil and water conservation in ecologically fragile Bashang grassland Wang Lanyuan, Wang Yining, Ren Yongning, et al (89)

Effect of soil conditioner interface modification on migration characteristics of saline-alkali ions in Yellow irrigation area Chen Xiangyu, Wei Jiangsheng, Ma Shuhua, et al (98)

Simulation of soil N₂O emissions under different soil moisture conditions by using mixed dynamic equation Tang Kun, Zheng Yixin, Zhao Chengzheng, et al (106)

Effects of desulfurized gypsum applied combined with polyglutamic acid (γ-PGA) on improving saline soil Zhang Lingzhi, Li Meng, Li Hongyi, et al (115)

Response of soil moisture dynamics to micro-topography modification in cold and arid mining areas of southern piedmont of Tianshan Mountain Lu Yuanbo, Yan Cheng, Song Chunwu, et al (126)

Water conservation function of artificial forests in Kubuqi Desert Han Qingchi, Wang Haichao, Sun Kai, et al (133)

Soil and Water Conservation Monitoring and Applied Technology

Slope rill erosion and morphological evolution based on UAV nap-of-the-object photogrammetry Yao Yihang, Zhang Zhan, Li Yonghong, et al (142)

Comprehensive benefits evaluation of desert highway sand control engineering based on matter-element extension model with variable weight Li Liangying, Lü Lele, Yin Wenhua, et al (148)

Impacts of a new round of returning farmland to forests and grasslands project on land use efficiency—Empirical study on yellow river basin Xue Jianchun (155)

Farmers’ and herdsman’s sustainable livelihood capital and livelihood strategy in enclosed reserves of desertified land—Taking four enclosed reserves in Gansu Province as an example Zhang Yishan, Luo Yongzhong, Gui Jie (165)

Evaluation of water resource vulnerability in Changsha City based on VSD model and cloud matter-element model, and diagnosis of obstacle factors Deng Hongwei, Li Yi (174)

Ecological value of multi-scale cultivated land protection and compensation standards in watersheds Wang Panpan, Gao Jia (185)

Ecological protection effects provided by sand barriers in a grassland mining area Cong Longyu, Xu Li, Zhang Chunliang, et al (193)

Sustainable utilization and obstacle factors of water resource in Jiangxi Province	Du Haijiao, Deng Qunzhao, Long Yinghui, et al (200)
Construction of ecological security pattern and identification of key regions based on ecological assessment and circuit theory	
—A case study of Anhui Province	Wang Qin, Yu Ran, Chu Zhaojun, et al (209)
Rapid identification and extraction of anthropogenically disturbed regions resulting from production and construction projects in Hubei Province from 2017 to 2021	Liu Chengshuai, Hua Li, Zhou Yucheng, et al (217)
Importance analysis of vegetation change factors in East Africa based on machine learning	Zhang Xiumei, Ma Bo, Zhang Yijie (227)
Construction and evaluation of an ecological network for Dongguan City based on urban big data POIs and circuit theory	He Xiaxuan, Yuan Qifeng, Zeng Yue, et al (237)
Research progress and prospect in slope greening in China	
—Bibliometric analysis based on CiteSpace and VOSviewer	Zhang Mengyan, Guo Xiaoping, Zhao Tingning, et al (248)

Comprehensive Researches

Welfare effect of Farmers' participation in soil conservation: concept, connotation and evaluation index framework	Wang Min, Wei Jie, Tang Qiang, et al (256)
Spatial-temporal evolution and influencing factors of dominant marginalization of cultivated land in Guizhou Province based on land use change	Feng Yingbin, Yang Xiyuan (263)
Supply and demand of multi-scale ecosystem services and their influencing factors in Hu'nan Province	Yang Jun, Tang Xinglong, Yuan Shujun, et al (272)
Coupling and coordination relationship between new urbanization, economic development, and ecological water environment in Huaihe River economic belt, and their driving factors	Li Minghong, Lu Ci (282)
Spatial-temporal variation and driving forces of water yield in Harbin City	Qi Yuxin, Hu Yuandong (294)
Spatial-temporal variation of vegetation coverage and its influencing factors in Binchang mining area from 1986 to 2021	Wen Fan, Chen Qiuji, Huang Lan, et al (304)
Spatio-temporal evolution and coupling coordination of socio-economic level and ecological resilience in Fuzhou metropolitan area	Li Shihan, Chen Qiuxia, Xu Zhanghua, et al (311)
GIS-based study of ecological water requirement of vegetation in Inner Mongolia Autonomous Region	Li Yuan, Yu Ruihong, Zhao Yuanzhen, et al (324)
Driving force analysis of spatio-temporal changes in vegetation coverage in Pearl River delta based on geographic detector model	Shen Mingtan, Tan Bingxiang, Hou Ruixia, et al (336)
Spatiotemporal differentiation and driving factors of green efficiency of agricultural water use in China	Liu Shixiang, Cao Jian (346)
Spatiotemporal pattern of land cover types on Loess Plateau	Ma Hui, Zhao Hongfei, Yue Chao, et al (358)
Spatial and temporal characteristics of rural revitalization level and its influencing factors in Guangdong Province	Wu Zhaojun, Wu Dafang, Li Shengfa, et al (369)
Spatial and temporal changes and driving factors of soil erosion in north piedmont of Yinshan Mountain	Wu Shuai, Aruhan, Pan Haiwei (380)
Soil erosion and soil and water conservation measures at Xiliugou Watershed in Ten Tributaries area in Inner Mongolia	Zhang Yijie, Kang Bin, Zhang Xiumei, et al (391)
Factors influencing recessive transformation of land use in Fujian Province during 2000—2020	Pu Jiahao, Chen Songlin, Du Fengyi (402)
Effects of climate change and human activities on vegetation coverage in arsenic sandstone area of Yellow River basin	Sheng Yan, Liu Linfu, Yuan Yuan, et al (412)
Coupling coordination relationship between high-quality development and water resource protection and utilization in urban agglomerations of middle reaches of Yellow River from 2011 to 2021	Yue Lizhu, Zhang Jiawei, Han Rongteng (421)
Influencing factors of cultivated land spatial protection pattern and countermeasures of regulation planning	
—Taking Kongtong District in Pingliang City of Gansu Province as an example	Jing Shengpeng, Chen Yawei, Zhou Xiaoming, et al (434)
